MiaPhos: Strong bone and eggshell

Animal Nutrition: Liquid Mineral Supplement

LEMMENS SHARDLOW

LEMMENS SHARDLOW (INDIA) PVT. LTD.

Established in 1993, as a privately owned Indian Company, specialising in the marketing of animal nutrition products. Our fundamental principal is to supply superior quality products at a fair price. Our sales team is always with the customers, assisting them in their efforts to keep their animals healthy.

The Company's objective is to bring the best from around the world and contribute to India's growth story.

One such strong partnership is with **MIAVIT, Germany** with whom we have been associated with since 2010.

MIAVIT, Germany

FAMIQS European Feed Additives and PreMixtures Quality System

BIO nach EG-Öko-Verordnung

Feed Safety GMP+ Assurance

FSSC 22000

QS – Quality scheme for food

TÜV SÜD ISO 9001

Within a short period of time, **MIAVIT** has developed into a renowned producer of high-quality liquid feed supplements for all kinds of animals. The product range comprises of mixtures containing vitamins and trace elements as well as minerals, flavours, amino acids, electrolytes, probiotics and lecithin.

Liquids are convincing in several ways. They can simply be administered via drinking water, consequently ensuring rapid and flexible applications. Moreover, they provide highly available vitamins and trace elements.

For the Indian market, the products are imported directly from **MIAVIT's** plant in Essen, Germany and is distributed in the original bottles with fully disclosed formulations.

The art of mixture.

MiaPhos

Strong bone and eggshell

mineralisation of the skeleton

improved eggshell quality

improved water hygiene

Situation:
Bone demineralisation and malformation are two of the main reasons for poor performance and mortality in all kinds of poultry. A lack of minerals and trace elements can often be observed after a period of digestive disorders. Nutritional deficiency, especially mineral and trace element deficiencies, can lead to poor feed conversion, reduced growth rates, decreased hatchability, egg selection problems as well as reduced eggshell thickness.

What is the solution?
MiaPhos is a liquid animal feed supplement for poultry for additional temporary mineral supply.

- supports the mineralisation of bones through a special combination of minerals and trace elements
- improves eggshell quality
- includes orthophosphoric acid which lowers the pH value of the drinking water as well as the total bacterial count

Feeding recommendation:
1.0-2.0 l per 1,000 l drinking water for 3-5 days

Dosage (per 100 birds / day for 3-5 days):
Breeder: 15-20 ml
Commercial Broiler: 5-10 ml
Commercial Layer: 10-15 ml

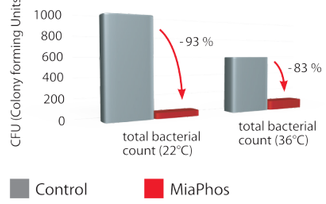

(in case of severe stress, double the dosage) (for acute problems such as prevention of lameness, rectifying calcium tetany, egg selection problems, egg breakage/quality problems, kindly contact your nearest nutritionist, Company executive or Company Distributor/ Retailer) (for better results, kindly dose the product with the evening drinking water)

Packaging: 12 x 1 litre

Additives per litre:

Calcium	3.00%
Phosphorus	9.70%
Sodium	1.00%
Magnesium	1.25%
Copper	2,500 mg
Manganese	2,500 mg
Zinc	1,800 mg

Advantages?
Total bacterial count of untreated water (Control) and water treated with MiaPhos (1L / 1,000 L)

Indications :

- mineralisation and strengthening of the skeleton, thus preventing onset of lameness
- improved feed conversation rate
- solid basis for a good fattening and laying performance
- enhanced eggshell quality
- improvement in egg selection
- improved water hygiene by reducing bacterial load
- additional mineral nutrients after diarrhoea
- effective as a solution for immediately rectifying calcium tetany
- clear liquid ensures zero blockage in drinking nipples
