GREEZGARD®

Grease Trap and Drain Line Treatment | Biodegradable | Environment-friendly

APPLICATION AREAS:

- Grease traps of restaurants, fast food chains, hotels, corporate offices, malls and food courts
- Drain lines of restaurants, fast food chains, hotel kitchens, food courts and households

ABOUT GREEZGARD®:

Greezgard® represents the next step in technology for the biological treatment of grease traps and drain lines. With regular application of Greezgard® in grease traps and drain lines, there is highly effective grease removal, accompanied by reduction of objectionable odors, fewer system backups and reduced pumping out on a continuous basis. The application of Greezgard® is ideal for keeping drain lines free flowing where heavy duty cooking takes place.

BENEFITS:

- Restores free-flow conditions and ends the problem of slow-running drains
- Inhibits the production of odor causing gases
- Digests grease and scum from grease traps and drain lines and does not transfer grease downstream thus preventing blockages
- Degrades fat, oil and grease (FOG) consequently reducing the requirement of frequent pumping out of grease traps
- Will not damage or corrode traps or pipes

RECOGNITION WON BY GREEZGARD®:

GreenPro Certified by the Confederation of Indian Industry (CII) Green Products and Services Council, qualifying as a green product.

USAGE:

- Mix contents well before use. Dose during low-flow conditions.
- The characteristics of your system (operation/usage) will determine exact dosage as well as frequency of use. Please contact your supplier for the dosage that best suits your requirement. Indicative dosages are given below:

Grease Traps	
Trap Capacity	**Dosage**
100 – 500 ltr.	300 ml per day
500 – 1,000 ltr.	600 ml per day

Drain Lines*		
Details	**Frequency**	**Dosage***
Malls, Hotels and Commercial Establishments (4 to 6 inches)	10 Day Initial Treatment	600 ml per day
	Maintenance Treatment	300 ml per day
Residential Establishments	Maintenance Treatment	100 ml per day

**Run room temperature water for 30 seconds before dosing. Dose at closing or quiet hours for best results.*

CHARACTERISTICS:

- **pH :** Neutral
- **Flash Point:** Non-flammable
- **Appearance:** Blue-Green Liquid
- **Fragrance:** Herbal

PACKAGING:

2 x 5 litre cans ; 500 ml bottles

SHELF LIFE:

2 years from the month of manufacture.

STORAGE:

Store in a cool, dry place at room temperature.

PRECAUTIONS:

While this product is non-toxic, non-corrosive and non-poisonous, it is wise to keep it out of reach of children and to follow basic precautions of use. Wash your hands with warm, soapy water after use. Avoid contact with eyes, open cuts or sores. In case of contact with eyes, flush with water. Seek medical advice if irritation persists. Do not use this container for storing beverages or other liquids.
